

CELLS

By Celia Cobarro

PROKARYOTIC CELLS

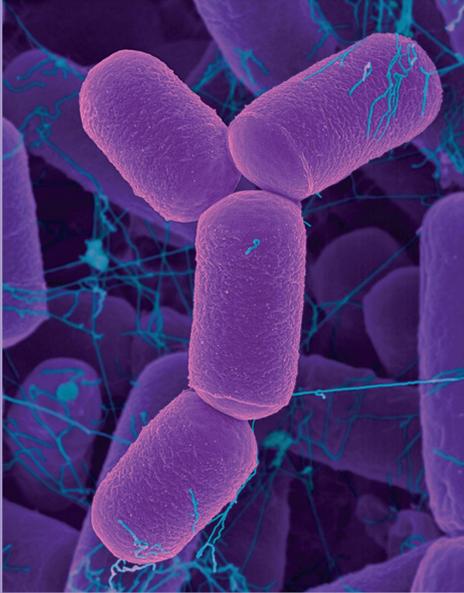

1. A prokaryotic cell is a very simple, single-cell organism.

2. Prokaryotic Cells don't have a nucleus.

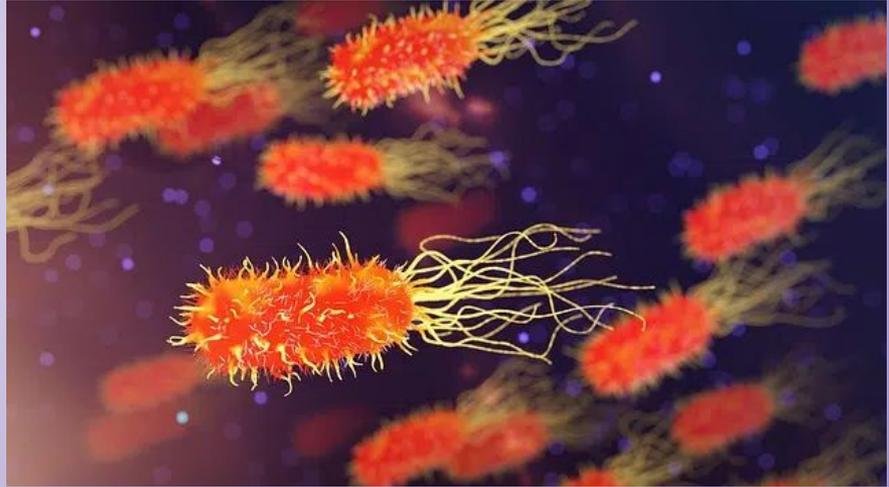

3. The genetic material is in the cytoplasm.

4. A prokaryotic cell is smaller than an eukaryotic cell.

PROKARYOTIC CELLS EXAMPLES

Archaea

Bacteria

EUKARYOTIC CELLS

1. A cell or organism that has a nucleus .

2. The genetic material is in the nucleus.

A eukaryotic cell is bigger than a prokaryotic cell.

EUKARYOTIC CELLS EXAMPLES

Animal cell

Plant cell
